

Abductor, of neonates, profile of, [211](#)

Ablation, [740](#)

ABO blood group system, [264](#)

ABO incompatibility, [265](#), [265t](#)

Abscess, Brodie, [970-971](#)

Absence seizures, [897b-898b](#), [898t](#)

Absolute neutrophil count (ANC), [821](#), [821b](#)

Absorptive defects, malabsorption syndromes and, [733](#)

Abstinence, sexual, [477t-479t](#)

Abuse

- characteristics of child and, [420](#)
- emotional, [419](#)
- environmental characteristics and, [420](#)
- parental characteristics and, [420](#)
- physical, [419-420](#)
  - factors predisposing to, [419-420](#)
  - prevent, [425-426](#), [426b](#)
  - warning signs of, [422b](#)

Abusers, characteristics of, [420-421](#)

Acceptance, in chronic or complex diseases, [507](#)

Accessory nerve, assessment of, [111f](#), [111t-112t](#)

Accessory skin structures, examination of, [88-89](#), [89f](#)

Accidental decannulation, in tracheostomy, [631](#)

Accommodation, of pupils, [91](#)

Accomplishment, sense of, in school-age child, [430](#)

ACE. *See* [Antegrade continence enema \(ACE\)](#)

ACE inhibitors, for heart failure, [752-753](#)

Acellular pertussis vaccine, [154](#)
