

Carbon dioxide narcosis, oxygen-induced, 626

Carbuncle, 176*t*

Cardiac catheterization, 740, 740*t*

- case study on, 741*b*
- electrophysiologic, 772
- family-centered care for, 741*b*

Cardiac failure, in acute kidney injury, 864

Cardiac resynchronization therapy (CRT), 753

Cardiomyopathy, 773-774

Cardiopulmonary resuscitation (CPR), 681-684

- breaths in, 684, 684*f*
- chest compressions in, 683, 683*f*
- medications in, 684
- open airway in, 684, 684*f*
- pulse check in, 683, 683*f*
- resuscitation procedure in, 681-684, 682*f*

Cardiovascular dysfunction, child with, 738-785

- acquired, 738, 765-774
- auscultation in, 738
- cardiac magnetic resonance imaging in, 740
- diagnostic catheterization for, 740
- diagnostic evaluation of, 739-740, 739*t*
- echocardiography in, 740
- electrocardiogram in, 739
- electrophysiology studies for, 740
- history of, 738-741
- inspection in, 738
- interventional catheterization for, 740, 740*t*
